The 8th 3PL Summit – co-located with the Chief Supply Chain Officer Forum – will reveal how you can adapt your business to meet the requirements of the economic rebound, drive renewed growth and gain market share.

Learn how the world's most prominent 3PLs are positioning themselves in a time of growth, change, and fierce competition:

- **The Boardroom Agenda:** post-recession leadership to accelerate out of the curve
- **Build on Your Company's Strengths:** Find renewed focus in your priority growth areas and discover new profit centers
- **Deal with Unpredictable Demand and Fluctuating Volumes:** Stay on target as business picks up
- **Globalize the Supply Chain:** Establish a truly globalized end-to-end supply chain, achieve inventory optimization, and look behind M&A activity in the logistics provider market
- **Develop a Culture of Innovation:** Disseminate best practice across the business and foster operational excellence
- **Take Your 3PL Sales and Marketing Strategy to the Next Level:** Compete with the best for the most profitable contracts
- **Talent Management & Productivity Gains:** Attract, recruit and retain 'A' leadership, and increase productivity into the recovery without losing morale or your best people

The summit will give you access to:

- The special **Executive Workshops** on June 21st: the perfect start to the conference, facilitating interactive debate on the most critical and difficult to handle issues in supply chain management
- Two days of **keynote presentations**, streamed **focus groups** and interactive panel debates on June 22nd and 23rd
- The 3PL Awards – the logistics industries' only 'customer choice' awards, voted on by shippers in 8 categories
- Private, **pre-qualified one-to-one meetings**, guaranteeing the right solutions to successfully drive profitability and establish new relationships
